

ANIRBAN DAS

Full Stack Developer — React • Node.js • REST APIs

anirban140963@gmail.com — +91 8101733466 — <https://linkedin.com/in/anirban-das-b192a9260> — <https://github.com/anirbandas-01>

SUMMARY

Full Stack Developer with experience building and deploying 5+ web applications using React.js, Node.js, and REST APIs. Skilled in developing scalable backend systems, authentication services, and database architectures using MongoDB and MySQL. Seeking an entry-level Software Developer role in backend or full-stack development.

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, PHP, REST APIs, JWT Authentication

Databases: MongoDB, PostgreSQL, MySQL

Tools: Git, Docker, socket.io, Vercel, Render, OpenAI API

Core CS: Data Structures, OOPS, Operating System, Networking

PROJECTS

Healthcare Risk Management Platform [Live](#) — GitHub

Dec 2025 – Jan 2026

- Built a full-stack healthcare web application using React.js, Node.js, and MongoDB for managing and analyzing patient data.
- Designed and developed RESTful APIs for data handling, authentication, and risk evaluation workflows.
- Integrated external prediction services via APIs and optimized backend performance with efficient database queries.

Content Automation SaaS Platform [Live](#) — GitHub

Oct 2025 – Nav 2026

- Developed a full-stack SaaS application using React.js, Node.js, Firebase and PostgreSQL for automated content generation and user workflows.
- Built scalable REST APIs with authentication, request handling, and structured data management for multi-user access.
- Integrated external AI services via APIs and optimized backend performance to handle high-volume requests efficiently.

Community Resource Platform [Live](#) — GitHub

Feb 2026 – March 2026

- Developed a full-stack community web platform using PHP (Laravel) and MySQL for managing and sharing local resources.
- Designed RESTful APIs and backend logic for user authentication, resource posting, and request handling workflows.
- Structured relational database schemas and optimized queries for efficient data retrieval and system performance.

DEVELOPMENT EXPERIENCE

Independent Full Stack Developer

2023–Present

- Developed and deployed 5+ full-stack applications using React, Node.js, and SQL/NoSQL databases.
- Built secure REST APIs and deployed applications on Vercel and Render.

EDUCATION

Master of Computer Applications (MCA) Academy of Technology, MAKAUT

2024–Present — CGPA: 7.40

B.Sc. Computer Science Kanchrapara College, University of Kalyani

2021–2024 — CGPA: 7.49

CERTIFICATIONS

Oracle Cloud Infrastructure Generative AI Professional (2025)

Oracle Cloud Infrastructure AI Foundations Associate

Oracle AI Vector Search Certified Professional
